## ANGUS

### 50 ROBUST YEARLING BULLS

Noonee Angus is proud to present a robust line of yearling bulls with outstanding EBVs. They are ready to work and have passed complete health and semen checks.

Noonee Angus is one of the oldest Angus studs in Central West NSW. It is backed by a long-held tradition of selecting only the top-performing cows that also meet stringent criteria of quiet temperament and excellent structure.

The Noonee Angus cows are so highly regarded in the industry, that many of the more recent Angus studs in the region have incorporated Noonee Angus females, as well as some older studs too. This includes Karoo, Talooby, Outwest, Hollywood and Hard Hat amongst others.

We join carefully selected AI sires and homebred bulls to our wonderful cows to produce robust bulls bred to produce well-muscled and growthy progeny for our commercial clients.

If you would like to inspect the sale bulls or see the cow herd, please give me a call.

*Netta Holmes Lee*

#### MSU CRV Dark Knight

A real outcross sire, we have been thrilled with how Dark Knight has performed. He gives us slick-coated progeny with plenty of length and weight. We have soft, feminine daughters that are now 3 years old and on their second calves. They have coped with the tough conditions amazingly well – they did a good job with their first calves and went back into calf easily. The sons also show the do-ability and weight gain needed for commercial cattle operations.

### SIRES REPRESENTED

#### Millah Murrah Loch Up L133

The Loch Up L133 sons show excellent length and weight gain, and have been standouts at other spring bull sales. I like their temperament and structure. They will grow out into powerful bulls that will pack great weight for age into their progeny.

#### Baldrige Command C036

Joined to most of our heifers, Command proved very easy-calving. His sons are consistently thick with tremendous muscle and shape. They are very docile and easy to handle. I would think they are best suited to put with heifers to get solid calves, with the conformation to get top dollar in the saleyard or over the hook.

#### Te Mania Emperor E343

Emperor really needs no introduction – he is established as one of the all-time great bulls bred in Australia. I really used him to get a few more daughters in the herd, but his long-bodied, soft sons are useful too.
